Education

BVDU, Yashwantrao Mohite Institute Of Management, Karad

B.C.A - - CGPA - 9.0

2023 – 2026

Karad, Maharashtra

Experience

NSDC

May 2025 – Jun 2025

Senior Data Engineer Intern (INTERNSHIP)

Remote

- led the design and implementation of scalable data pipelines to support national skill development initiatives.
- built and optimized ETL workflows using Python and SQL, handling both batch and real-time data ingestion.
- Deployed data models and warehouse solutions on cloud platform such as AWS (Redshift, S3) and GCP (BigQuery).

TheSmartBridge

Sep 2025 – Oct 2025

Intern (INTERNSHIP)

Remote

- Created text embeddings, performed vector search, and integrated outputs with Cloud Storage and BigQuery.
- Used Vertex AI models for text generation, summarization, and classification.
- Worked on challenge labs that required independent problem-solving, debugging, and model execution.

Projects

Livercare Prediction 

Mar 2025

- Developed an AI-powered web application for liver disease prediction using Machine Learning and Flask, enabling users to input medical parameters and receive real-time diagnostic predictions.
- Built and trained predictive models using Python libraries (Pandas, NumPy, Scikit-learn) and integrated them into a production-ready backend for reliable inference.
- Designed an end-to-end deployment pipeline with an interactive web interface, improving accessibility of healthcare insights through a scalable ML-driven solution.

Ember and Brew 

Jan 2025

- usability and accessibility across devices.
- Developed a visually rich café website (Ember & Brew) using React, HTML, CSS, and GSAP, featuring smooth animations, interactive components, and responsive design for an engaging user experience.
- Deployed the application on a cloud hosting platform with optimized performance and navigation flow, strengthening the café's digital presence and online reach.

Resume Builder Website 

Dec 2025

- Developing a full-stack Resume Builder web application using React, FastAPI, LaTeX, and PostgreSQL, enabling users to generate professional, ATS-friendly resumes dynamically.
- Implemented backend services for user input processing, template rendering, and PDF generation via LaTeX, ensuring accurate formatting and high-quality document output.
- Designed a responsive UI with real-time preview and database integration, improving usability and enabling efficient storage and retrieval of resume data.

Technical Skills

Programming Languages: Python, Java, Javascript, C Programming

Technologies / Frameworks: Node Js, Express Js, React, Gsap

Developer Tools: VScode, Git, Github, Postman, Render, Vercel, Netlify

Certifications

- Data Analytics Certificate from Deloitte - Deloitte (2025)
- Artificial Intelligence (AI) Machine Learning (ML) - The SmartBridge (2025)
